Frontend Developer

Frontend Developer with 4+ years of experience designing, developing, and maintaining scalable web applications. Strong expertise in JavaScript, React, HTML5, CSS3, and responsive design principles. Experienced in integrating RESTful APIs, optimizing performance, and implementing UI/UX best practices. Proven ability to collaborate with cross-functional teams and deliver high-quality, production-ready applications. Currently pursuing a degree in Software Engineering to deepen architectural and system design expertise.

WORK EXPERIENCE

► IT & Web Systems Manager | Omaplex Law Firm | On-Site

2024 – Present

- Designed and maintained internal web applications and frontend interfaces for legal workflow automation.
- Implemented secure, responsive interfaces ensuring cross-device compatibility.
- Collaborated with stakeholders to translate business needs into technical frontend solutions.
- Led code reviews and enforced frontend best practices.
- Managed system integrations and API-based solutions for internal platforms.
- Oversaw deployment pipelines and system updates to maintain performance and reliability.

► Web Operations Manager | Eclat HR Consulting | Remote

2022 – 2024

- Designed and maintained responsive frontend interfaces using JavaScript, HTML5, and CSS3.
- Integrated backend APIs to dynamically render content and improve platform interactivity.
- Optimized website performance through caching strategies and code refinement.
- Applied UI/UX best practices to enhance accessibility and user engagement.
- Maintained technical documentation and system updates to ensure long-term maintainability.

► Front-End Engineer | Louis Care Support | Intern

2020 – 2021

- Developed responsive and accessible web interfaces using JavaScript, HTML, CSS, and WordPress.
- Collaborated with designers and backend teams to implement user-friendly components.
- Improved site accessibility and cross-browser compatibility.
- Participated in iterative improvements following stakeholder feedback.

► Freelance Frontend Developer

- Built and deployed responsive websites for multiple clients including law firms and startups.
- Developed component-based frontend structures using React.
- Designed scalable UI systems aligned with brand guidelines.
- Managed Git-based version control and deployment workflows.
